PROFILE

Software Engineer with 5 years of experience in developing and maintaining web applications using Laravel, CodeIgniter, PHP, JavaScript, and MySQL/PostgreSQL. Experienced in developing healthcare, logistics, HR, and internal business management systems as part of a collaborative development team. Also experienced in teaching programming to learners of different age groups and skill levels. Committed to continuous learning, problem-solving, and delivering practical and maintainable solutions.

EDUCATION

2015 – 2019 Bachelor of Science in Physics, Yogyakarta State University
GPA : 3.66

PROFESSIONAL EXPERIENCE

Jul 2024 – Aug 2026	Freelance Web Programmer, PT. Askara Tehno Indonesia	Remote
	- Developed and maintained an internal HRIS (Human Resources Information System) to support employee and HR management processes. - Contributed to the development and maintenance of an internal business management system. - Developed and maintained web applications using CodeIgniter 3 (CI3) and MySQL. - Collaborated with the team to develop new features, fix bugs, and improve system functionality and performance.	
Jan 2024 – May 2026	Coding Tutor, Alhazen Academy	Hybrid
	- Taught Scratch, Thunkable, Python, and Web Development to learners ranging from primary school students to adults. - Conducted online and offline classes, both individually and in groups, including coding extracurricular programs at partner schools. - Applied interactive and hands-on teaching methods to make coding accessible and engaging for learners of different levels. - Contributed to the development of the AI for Kids learning module. - Contributed to the development of the Alhazen Academy landing page.	
Jul 2024 – Dec 2024	Coding Teacher, Alhazen School	Remote
	- Taught basic programming and coding to students in Grades 1–4 through interactive and age-appropriate lessons. - Introduced students to fundamental programming concepts through hands-on coding activities. - Taught Microsoft Office to Grade 4 students to develop their digital literacy and computer skills.	
Jan 2023 – Jan 2024	Web Programmer, PT. Askara Internal	Bekasi
	- Developed and maintained an internal operational management system used by the General Affairs (GA) team to manage company vehicle maintenance. - Developed and maintained the application using Bootstrap, JavaScript, PHP, and PostgreSQL. - Collaborated with the team to develop new features, fix bugs, and improve system performance.	

Nov 2022 – Feb 2024	Freelance Tutor, Kodland	Remote
	• Taught Python to students aged 10–17 through interactive lessons and hands-on projects. • Guided students in understanding programming concepts through practical exercises and project-based activities.	
Aug 2021 – Sep 2022	Web Programmer, PT. Emco Digital Indonesia	Jakarta
	• Contributed as a Web Programmer in a team developing a web-based logistics software. • Developed and maintained the application using PHP, MySQL, and Bootstrap. • Collaborated with the team to develop features, fix bugs, and improve system performance.	
Jan 2021 – Jul 2023	Freelance Mentor, Indonesia AI	Remote
	• Taught Basic and Intermediate Python classes to adult learners, including university students and working professionals. • Guided Intermediate Python learners in using NumPy, Pandas, and Matplotlib for data exploration and Exploratory Data Analysis (EDA) through hands-on exercises and projects. • Provided practical guidance to help learners strengthen their Python programming and data analysis skills.	
Jul 2020 – Jul 2021	Web Programmer, PT. Infokes Indonesia	Bandung
	• Contributed as a Software Engineer in the development of the ePuskesmas healthcare information system. • Developed and maintained web applications using Laravel, Bootstrap, and MySQL based on business and technical requirements. • Collaborated with team members to develop new features, fix bugs, and improve application functionality and performance.	

TRAINING

Mar 2020 – Apr 2020	Web Development, NF Computer	Depok
	• Completed a 2-month intensive program focused on PHP (Laravel), Bootstrap, and MySQL. • Gained hands-on experience building responsive web applications, covering both front-end and back-end development. • Strengthened understanding through practical projects and real-world exercises.	
Jan 2023 – Jan 2023	Virtual Intern : Big Data Analytics Kimia Farma x Rakamin Academy	Online
	• Completed a 1-month program on end-to-end data processing, including cleaning, transformation, and loading (ETL). • Gained hands-on experience with SQL and Google Data Studio to process large datasets. • Built a sales data dashboard from raw data to apply and showcase acquired skills.	

SKILLS

Programming Languages: PHP, Python, JavaScript

Frameworks: Laravel, CodeIgniter 3

Frontend Technologies: HTML, CSS, JavaScript, jQuery, Bootstrap, Tailwind CSS

Database Management: MySQL, PostgreSQL

Admin Panel & CMS: Filament

Version Control: Git

Data & Analysis: NumPy, Pandas, Matplotlib, Exploratory Data Analysis (EDA)

Soft Skills: Problem Solving, Team Collaboration
